Re: Information Request Pursuant to Section 308 of the Clean Water Act
Monthly Progress Report

Dear Ms. Mitchell,

In accordance with the Information Request pursuant to Section 308 of the Clean Water Act dated October 6, 2009, Dalton Utilities is submitting this Monthly Progress Report to you.

Dalton Utilities has submitted all the information to date as required by EPA's Information Request pursuant to Section 308 of the Clean Water Act dated October 6, 2009 (the "Request").

With respect to the Drinking Water Well Survey, Dalton Utilities has instituted the quarterly sampling of the seven private drinking water wells shown to have levels of Perfluorooctanoic Acid (PFOA) or Perfluorooctane Sulfonate (PFOS) above the contract laboratory's reporting limit or level of quantification and below the published public health advisory level as well as the two additional wells found to have levels of Perfluorinated Chemicals (PFC) other than PFOA or PFOS above the contract laboratory's reporting limit or level of quantification. The final sampling event scheduled for these locations occurred in May 2010. The final analytical results of this sampling event will be submitted to you after receipt.

In accordance with the Composted Biosolids Monitoring Plan, Dalton Utilities has sampled the on-site inventory of finished compost three times and submitted all analytical results received to date to you. The final sampling event is scheduled to occur in October 2010.

If you have any questions, please contact me at 706-529-1091 or dcupe@dutil.com.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted.
